## Welcome

...to this edition of the Guard-Alert Gazette. Thank you for all the positive feedback and constructive advice. This edition of Guard-Alert Gazette focuses on crime and some of the products offered by Guard-Alert Electronics. Read on....

## Car Security tips

With the increasing level of crime in our country, it is no longer safe to drive around without being aware of one's surroundings.

It is always important to be aware of the cars which are driving behind you, especially if the same car follows you for a long time. It will be worth it, if you can accelerate or slow down the car in order to be able to assess if the car behind you will match your driving behaviour and speed. Here are a few points which you should be aware of to prevent smash and grab incidents and hijackings:

- Plan your routes so as not to use the same one every day.
- Know where the nearest police station is located and have the police telephone number on speed dial in your cell phone contacts list.
- Be aware of suspicious vehicles following or people lurking near your gate and if there are do not stop at your destination, phone the Police.
- Be alert on approaching and stopping at intersections and always leave sufficient space to the vehicle in front in case you need to evade an attack.
- Be aware of and do not stop at obstructions in the road
- Never exit the vehicle with the engine running, especially when you are opening the gate at your house
- If you suspect you are being followed, drive to the nearest police station
- When driving always place your handbag and other valuables in the car boot or under your seat driving. Do not leave them on the seat or in view.
- If you discover a puncture shortly after starting your car be aware that this is very possibly a ploy to get you to stop and rob you so select carefully where you are going to stop.

**24 Hour Rapid Response**

Rapid Response Radio**

**All this for**

**\$375**

# Home and Garden Expo

Guard-Alert security took part in this year's edition of the Home and Garden Expo which was held towards the end of March at the Exhibition Park.

This was a good opportunity to market various products and services which the company offers, and it gave visitors to the stand ample opportunity to ask specific questions about the products on display. Some of the products and services showcased during the expo were the Panic Alarm Special for \$375 with free installation, vehicle tracking, IP surveillance cameras, gate intercoms and different types of CCTV alarms.
